

Dear Parents,

At this time of the year, we work on our calendars, trips, programs, staffing, bussing and all things necessary to keep camp as exciting and successful as it has been for the past 60 years!

Our directors have met numerous times since camp ended. Reviewing the camper surveys of last summer's trips, along with suggestions for the upcoming summer is extremely important to us. This is what the continued success and growth of our programs are based on.
